CAUTIONS

DO'S

- Read ALL the instructions before using this product.

- Only use this product for its intended use as described in this manual.

- Always use the product in accordance with this guide. If in doubt obtain expert advice.

- Always check your mains supply is the same as that indicated on the product before connecting.

- Always make sure the electrical socket is accessible.

- Always disconnect the heater from the electrical supply before carrying out cleaning or maintenance. To disconnect the heater, switch controls to OFF then remove plug from the outlet.

- Ensure the floor space is flat and even.

DON'TS

- Never leave children unsupervised in a room where the fire is ON and unguarded.

- Never obstruct or cover the fan outlet or force items into fire openings.

- Never use the product anywhere where water is in use, i.e. bathrooms, ktchens, shower rooms, and swimming pool etc.

- Never use aerosols or steam cleaners on or around the fire.

- Never route the supply cord under carpeting and never cover the cord with throw rugs, runners, etc. Arrange the cord away from traffic areas and where it will not be tripped over.

- Never place the heater close to curtains or combustible materials. Keep furniture, bedding, papers, clothes, curtains, etc. at least 1m away from the front of the heater and keep away from the sides and rear.

- Never use the product to dry clothes etc.

- Never sit or stand on the product.

- Never lean or put weight on the product.

- Do not use outdoors.

- Do not sit the product on deep pile carpets or rugs.

Avoid the use of an extension cord which may overheat and cause risk of fire. If an extension cord is necessary, it must be rated above the maximum rated power of the appliance. Care must be taken to arrange the cord so that it cannot be pulled or be tripped over.

IMPORTANT!

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- Children shall not play with the appliance.
- Cleaning and user maintenance shall not be made by children without supervision.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

WARNING: In order to avoid overheating,
DO NOT COVER THE HEATER

- The heater must not be located immediately below a socket outlet.
- Children of less than 3 years should be kept away unless continuously supervised.
- Please note the LED bulb in the appliance is non replaceable, do not attempt to replace it.

- Children aged from 3 years and less than 8 years shall only switch on/off the appliance provided that it has been placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children aged from 3 years and less than 8 years shall not plug in, regulate and clean the appliance or perform user maintenance.
- CAUTION — Some parts of this product can become very hot and cause burns. Particular attention has to be given where children and vulnerable people are present.
- This heater is hot when in use. To avoid burns, do not touch hot surfaces such as surfaces around the grille in front of the heater. Never let bare skin touch hot surfaces.
- Do not use this heater in the immediate surroundings of a bath, a shower or a swimming pool.
- Do not use this heater if it has been dropped;
- Do not use if there are visible signs of damage to the heater;
- Use this heater on a horizontal and stable surface.
- WARNING: Do not use this heater in small rooms when they are occupied by persons not capable of leaving the room on their own, unless constant supervision is provided.
- WARNING: To reduce the risk of fire, keep textiles, curtains, or any other flammable material a minimum distance of 1 m from the air outlet.

Note: When the heater is turned on for the first time or when it has not been used for some time, it may release a slight, harmless odour. This odour is a normal occurrence caused by the initial heating of the internal heating elements and will disappear with use.

INTRODUCTION

Thank you for choosing this product. It is designed to meet the most stringent quality, performance, and safety requirements. This guide aims to improve your understanding and appreciation of your new product by providing simple and informative instructions.

UNPACKING

The unit is supplied in a single package carton. Carefully unpack the product using the following procedure:

- Carefully lift the parts out of the box
- Carefully remove the protective wrapping from the parts
- Locate the instruction manual and put aside
- Carefully remove the product from its box and put aside

CARE

- Brushed stainless steel can be cleaned using a cloth and propriety cleaner.
- Fires with a glass screen can be cleaned using a cloth and propriety cleaner.
- Other features (non-silver) can be cleaned using a damp cloth.
- If the supply cord is damaged, it must be replaced by a suitably qualified person.
- The area around the fire should be kept free from animal hair, lint and other extraneous material that may be drawn into the workings of the appliance which could affect its performance.

ARRANGING THE FUEL BED

If your product is supplied with logs, slates and crystals, please see guide below. Please note that some models are supplied with large pebbles and some will have fixed fuel beds.

Arrange the logs as shown using the numbers shown underneath each log.

OPERATION

The control panel can be located on the inside bottom of the stove.

*Styles may vary

REMOTE CONTROL

CONTROL PANEL

The control panel can be located as shown.
 Note: image for illustration purposes only

OPERATION - Manual

On/Off switch must be switched on for the fire to work. The switch is in the ON position when the side with the 'I' marking is 'pressed in'

OPERATION - Remote Control

Insert 2 x AAA batteries to the back of the remote control. Turn the power switch on.

Powering the fire

Press the power button  to turn the fire on. The room temperature will be displayed and the functions can be used.

Note: This fire has a memory function, the fire will turn on to the last heat setting when the power button  is pressed

Turn on heater

Pressing the heater button  once will turn the heater onto full, H2 will be shown on the display, along with a red flame symbol.

To select the lower heat setting, press the heater button  again. H1 will be shown on the display, along with an orange flame symbol.

Note: The fan will run for approximately 15 secs. after the heater is turned off to cool the unit down.

Setting the thermostat (15°- 30°C)

Adjust the desired room temperature using the + and - buttons. The temperature will be shown on the display.

(If the room temperature is HIGHER than the selected temperature of the fire, the heater will not turn on).

Flame effect & colour

Eight themes can be selected using the flame effect button , the corresponding theme number will be shown on the display.

The 3 colours of the LED strips are Amber, Red and Blue.

- 1 - 100% Amber flame effect (default)
- 3 - 50% Amber and 50% Red flame effect
- 5 - 100% Blue flame effect
- 7 - 80% Amber and 20% Blue flame effect

- 2 - 80% Amber and 20% Red flame effect
- 4 - 100% Red flame effect
- 6 - 50% Blue and 50% Amber flame effect
- 8 - Flame effect is off

Fuel bed colour

Eight themes can be selected using the fuel bed colour options button , the corresponding theme number will be shown on the display.

- 1 - Orange
- 3 - Purple
- 5 - Cyan
- 7 - White

- 2 - Red
- 4 - Blue
- 6 - Green
- 8 - Fuel bed LED off

Dimming options

When adjusting the flame effect or fuel bed colour, within about 5 seconds, when the current value appears on the display, press the temperature +/- buttons to adjust the brightness of the flame effect or fuel bed colour. There are three types of brightness: H, C, and L. Such as 3H, 2L, etc. H is the maximum and L is the minimum.

Set day & time

To show the day and time, press and hold the time setting button  for 2 secs.

Press the time setting button  again to set the DAY. The DAY will flash on the display.

Select the day using the + or - buttons.

Press the time setting button  again and the HOUR will flash.

Select the HOUR using the + or - buttons.

Press the time setting button  again to select MINUTE.

Select the minute using the + or - buttons.

Press the time setting button  to exit the day and time setup.

Set timers

The timer setting allows for two ON/OFF periods (M1 and M2) to be set for each day of the week.

Press and hold the timer mode button **M** for 2 secs. to begin setting the timer.

The setting for the 1st period ON time  (M1) for Monday will be shown. The HOUR will also flash.

Select the HOUR using the + or - buttons.
Press the time setting button  to move to the next step. Use the + or - buttons to change the MINUTE.

Press the time setting button  to set the 1st period OFF time  (M1).

Use the + or - buttons to select the HOUR.
Press the time setting button  to move to the next step. Use the + or - buttons to select the MINUTE.

Press the time setting button  to set 2nd period ON time (M2).

Use the + or - buttons to select the HOUR.
Press the time setting button  to move to the next step. Use the + or - buttons to select the MINUTE.

Press the time setting button  to set 2nd period OFF time (M2).

Use the + or - buttons to select the HOUR.
Press the time setting button  to move to the next step. Use the + or - buttons to select the MINUTE.

Press the time setting button  to move onto the next day, repeat this process to set the timer for the rest of the week.

Leave the remote for 10 secs. to exit the timer settings.

To activate the timer settings, press the timer mode button **M** until the timer symbol is shown on the display.

ADDITIONAL FEATURES

Open Window/Door Detection - If the heater is turned on and the ambient room temperature drops, the heater automatically turns off (and ECO is shown on the display). The heater can be turned back on using the heater button .

TROUBLESHOOTING

Display shows 'E1'

The thermostat sensor may be broken or disconnected.

If E1 is shown, please contact customer support.

Display shows 'E2'

The thermostat may be broken.

If E2 is shown, please contact customer support.

Display shows 'E3'

Manual reset overheat protection has been triggered.

Check the air inlets or outlets are not blocked or obstructed and unplug the fire for 30 minutes to allow it to cool down. Once cooled, plug the fire back in, if the display still shows 'E3', contact customer support.

TECHNICAL PARAMETERS

Information requirements for electric local space heaters

Item	Symbol	Value	Unit	Item	Unit
Heat output				Type of heat input, for electric storage local space heaters only (select one)	
Nominal heat output	P_{nom}	2.0	kW	manual heat charge control, with integrated thermostat	[yes/no]
Minimum heat output (indicative)	P_{min}	1.0	kW	manual heat charge control with room and/or outdoor temperature feedback	[yes/no]
Maximum continuous heat output	P_{maxc}	2.0	kW	electronic heat charge control with room and/or outdoor temperature feedback	[yes/no]
Auxiliary electricity consumption				fan assisted heat output	
				[yes/no]	
At nominal heat output				Type of heat output/room temperature control (select one)	
	eI_{max}	N/A	kW	single stage heat output and no room temperature control	
				[yes/no]	
At minimum heat output				Two or more manual stages, no room temperature control	
	eI_{SB}	0.45	kW	[yes/no]	
				with mechanic thermostat room temperature control	
				[yes/no]	
				with electronic room temperature control	
				[yes/no]	
				electronic room temperature control plus day timer	
				[yes/no]	
				electronic room temperature control plus week timer	
				[yes/no]	
				Other control options (multiple selections possible)	
				room temperature control, with presence detection	
				[yes/no]	
				room temperature control, with open window detection	
				[yes/no]	
				with distance control option	
				[yes/no]	
				with adaptive start control	
				[yes/no]	
				with working time limitation	
				[yes/no]	
				with black bulb sensor	
				[yes/no]

SPECIFICATION

Supply Voltage	-	220-240V~50Hz
Rated Power	-	2000W
Fuse Rating	-	13 Amp
Lighting	-	5W LED Array (non servicable)
Class	-	1

CONFORMITY WITH DIRECTIVES

Conforms with relevant European Directives

ENVIRONMENTAL PROTECTION

- (WEEE) Waste Electrical and Electronic Equipment

Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice.

- This appliance complies with the RoHS directive which restricts the use of certain hazardous substances in electrical and electronic equipment. This directive bans the placing on the EU market of new electrical and electronic equipment containing more than agreed levels of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE) flame retardants.

OF PURCHASE HERE]

GUARANTEE

For your convenience, you are not required to complete a form and return it to us in order to validate your guarantee. However, please ensure that you retain your receipt which will act as both proof of purchase and a guarantee validation document. **We recommend that you attach your receipt to this documentation.**

Your product carries a 12 month guarantee from the date of original purchase (or as otherwise provided in writing at point of purchase). If your product fails to operate to its specification, due to faulty workmanship or materials during the guarantee period, we will either repair or replace the product. We will use our discretion to determine whether to offer a repair or provide a replacement. The product will not be covered by the guarantee if it has been misused, transformed, modified or altered in any way.

If your product fails within the guarantee period please ensure that you have all necessary documentation available including proof of purchase (receipt or invoice with serial number, location and date of purchase) in addition to all original undamaged packaging and leaflets etc. It is strongly recommended that you inspect your product carefully before it is used or installed. For full details of your product you should refer to the instruction manual which accompanies the product. You are strongly advised to read this manual carefully in its entirety and to retain it for future reference.

This product guarantee does not affect your statutory rights.
